PLANNING AN EVENT

We are here to help you plan a successful event . Planning is important to ensure you and your guests enjoy a wonderful experience.

Menu planning: This is one of the most important items to discuss. One of our strengths, for a restaurant, is our ability to accommodate large groups. It is important to keep in mind that the larger the event is, the more important it is to plan the menu. For groups larger than 25 people, we strongly encourage going with a menu such as a buffet, family style dining or a set meal for all the guest. Having the full restaurant menu is possible , however it becomes more challenging to serve the food all at the same time.

Audio/Video: Do you require a T V for presentations? If so, is your laptop compatible with the facilities equipment. Do you require a microphone ?

Setup time: Are there decoration or props that you will be using for the event? If so, inform the facility to ensure they can accommodate the additional time that will be required to setup and tear down for the event.

Administrative: Is the host of the event paying for the event? Is the host of the event offering alcohol? Are guests paying individually? Will there be drink tickets? Will guest pre-pay for their meals?

Decorations: Do you require table clothes? Is there a third party decoration company involved? Do you require fridge space?

Scheduling: It is important to go through timing of an event to indicate how you would like your event to flow, when you want food to be served, when you do not want to be interrupted, etc.

EVENT SPACES

KS on the Keys is able to accommodate many large groups in our private rooms, semi-private areas and in the general restaurant.

The capacity of this room is 20 people. This room comes equipped with a 70" TV. There is a \$100 room fee. There is a minimum spending requirement to book this room of \$400 (before taxes and gratuity). If you feel that you cannot meet the minimum spending, then a room charge may apply.
